

### Easily Print Barcodes from SAP R/3, ERPs, Unix, Windows, etc.

If you need to print barcodes in documents created using Windows, SAP R/3, Oracle, or even your own custom application, install BarDIMM Pro on your HP LaserJet printer or MFP. Your printer will instantly become a barcoding expert, quickly producing high quality 1D and 2D barcodes.

#### Intelligent Barcoding

Unlike some barcode solutions, which merely add fonts to a PC or printer, BarDIMM Pro actually extends the PCL5e language. BarDIMM Pro performs barcode formatting, error detection, and checksum calculation thus reducing the load on the host. Barcodes can be printed in almost any size, rotation, bar width, and height. Caption text can be embedded in the bars or printed above or below the bars in a variety of fonts and sizes.

#### More than 80 Barcodes, 1D and 2D

BarDIMM Pro provides your PCL5e printer with the capability to print more than 80 barcode types, from the simplest 1D barcodes to the most complex and recent 2D barcodes.

#### Works Natively with SAP R/3, ERPs

BarDIMM Pro is plug-and-play with many ERP applications including Oracle and SAP R/3 (OSS notes available).

#### Barcoding from Windows

BarDIMM Pro is plug-and-play with most Windows applications through the use of special TrueType fonts.

#### Barcoding from Other Systems

Barcoding from any other system such as Unix or mainframes is also available by inserting barcoding commands in PCL5e flows or ASCII/SCS spool files.

#### Supported 1D Barcodes:

GTIN-12/UPC-A; GTIN-12/UPC-E; GTIN-8/EAN-8/JAN-8; GTIN-13/EAN-13/JAN-13; Code 39; Ext code 39; Code 93; Ext code 93; 25 Interleaved; 25 Industrial; 25 Matrix; Code 128; GS1-128/EAN 128/UCC 128; Codabar; Monarch; MSI Plessey; GS1-14 / DataBar14 RSS14, Stacked, Truncated; GS1 Databar Ltd/RSS Ltd; GS1 DataBar/RSS Exp.; 2D CC for GS1 DataBar/RSS barcode.

#### Supported 2D Barcodes

PDF 417, Macro PDF 417, AZTEC, UPS Maxicode, DataMatrix, QRCode, Codablock-F, RSS CC-A and CC-B.

#### Supported Postal Barcodes

ZIP+4 Postnet, USPS Tray and Sack, USPS Zebra, USPS Intelligent Mail Barcode, UK Royal Mail RS4CC Danish, French and German Postal Barcodes, Singapore and Australia Post 4state barcodes.

#### OMR Codes:

Optical Mark Recognition codes provide support for most common mailroom equipment.

#### Other (barcode font symbols):

OCR-A and OCR-B.

#### Simple to Install

The BarDIMM Pro module plugs directly into the printer. It does not require a PC or a server and does not need to be configured.

#### System Requirements

Most HP LaserJet printers are supported. Consult [www.jetmobile.com](http://www.jetmobile.com) for the complete list.

#### Regulation

WEEE and RoHS compliant

Jetmobile products are available in most countries worldwide.
